# Introduction

Women in Art Fair is a new initiative dedicated to redressing the gender imbalance in the art industry.

WIAF's mission is to create a positive global platform from which female artists, curators and gallerists are given an opportunity to show their work, and contribute to the developing exchange of ideas around gender, sexuality and culture.

Our inaugural fair is held at Mall Galleries 11-14 October 2023 and we have a developing platform with events planned throughout the year.

“A more than welcome recalibration, at a time when more and more importance and, above all, value is being attached to works produced by women.” **Tatler**

“London's Fall Frieze Week Has a New Addition With a Mission: An Art Fair Dedicated to Promoting Women Artists” **ArtNet**
